

ASFMS Mathematics

Summer Work Packet

Similar to the Summer Reading Program for ELA, the ASFMS Math Department has developed a set of problems that will provide students with the opportunity to practice essential skills and revisit important concepts that they learned over the past year.

Students need to answer all questions in the packet. There are answer grids provided in the back of the packet. All work should be done in pencil and fit inside the appropriate grid.

The ASFMS Math Department is providing an opportunity for students to receive some assistance completing the problems. There will be help sessions offered at ASFMS, at the date and time listed below. Feel free to attend a session(s) appropriate to the grade level you will be in when school starts.

Session 1		
7/26/10	10 -12	Incoming Grade 6
7/26/10	8-10	Incoming Grade 7
7/26/10	8-10	Incoming Grade 8
Session 2		
8/17/10	8:30-10:30	Incoming Grade 6
8/18/10	8:30-10:30	Incoming Grade 7
8/19/10	8:30-10:30	Incoming Grade 8

During these help sessions, students will have the opportunity to work with peers and review their solutions, in addition to receiving some direct instruction on items that they are struggling with or have questions about.

This packet will be collected the first week of school in the fall and be included in the Trimester 1 math grade.
